DETAILED ACTION

Allowable Subject Matter

1. Claims 5-6, 8-10, 17-19, 21-23, 28 and 30 are allowed.

The following is a statement of reason for the indication of allowance: As the applicant stated in the remarks of the amendment filed on 2/4/2008.

Applicant's independent claims 28 and 30: The present in invention is directed to a wireless communications kit for use with a cellular telephone , the independent claim identifies the patentably distinct feature "a first attachment shaped to secure itself to the mount and configured to seat itself about an ear of a user; and a second attachment shaped to secure itself to the mount and including a top portion arranged to attach to a temple member of a pair of glasses, wherein the first and second attachments include a downwardly dependent leg shaped and sized for receipt in the slot and wherein the leg includes a protuberance, the protuberance being urged past the series of constrictions upon insertion and withdrawal of the leg and wherein each constriction individually secures the attachment from separation from the housing of the communication headset". Applicant's independent claims 28 and 30 comprise a particular combination of elements, which is neither taught nor-suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Pertinent Prior Art

2. The prior art made of record and not relied upon is considered pertinent to application's disclosure.

Glezerman (U.S.Pub-20020098877) discloses Boom actuated communication headset.

Boyden (U.S.Pat-5737436) discloses Earphones with eyeglass attachments.
